

# ADVANCED SOLUTIONS FOR A MORE PRODUCTIVE, MORE ENGAGED HYBRID WORKFORCE

Ramping up capability to support a distributed workforce has become a matter of urgency for businesses. Employees are demanding flexibility to work remotely: businesses, facing a fearsomely competitive recruitment market and the threat of 'the great resignation', are having to step up to the plate.

Businesses must enable productive hybrid working environments while controlling costs, maintaining security, and keeping the whole process manageable.

STAY OR LEAVE?

## 64%

of employees say that remote working options directly affect whether they stay or leave a job<sup>1</sup>

## CHECKLIST FOR A SUCCESSFUL CONNECTED WORKFORCE

-  Reliable connectivity with corporate networks and systems
-  Security across networks and workflows
-  Simplicity. Easily deployed and configured equipment
-  Consistency of IT solutions, across the globe
-  Streamlined processes for supplier management
-  Predictability from sophisticated demand forecasting

## DENALI'S HYBRID WORKFORCE SOLUTION

To help businesses meet the challenges of a hybrid workforce, Denali delivers in three ways:

 **CONNECTING DISTRIBUTED WORKERS**

Fully-managed solutions for connecting distributed workers, ensuring fast, reliable and secure access to the enterprise

 **ENABLING PRODUCTIVITY**

Everything remote teams need for a productive workspace, easily ordered and rapidly delivered to their door

 **PROTECTING EMPLOYEE WELLBEING**

Practical ways to help you protect remote employees' wellbeing - from ergonomic furniture to Covid test kits

1. Cisco Hybrid Work Index
