

SAMSUNG

HEALTHCARE: **ENRICHED PATIENT AND STAFF EXPERIENCES**

TODAY'S KEY HEALTHCARE CHALLENGES

- Enabling device, system, and process interoperability to enhance services
- Modernizing outdated technology that silos data and creates security risks
- Improving workplace experiences to beat clinician shortages and burnout
- Enhancing patient experiences and ensuring high levels of confidentiality

50m

Americans suffered a health data breach in 2021, a threefold increase in three years¹

¹ Health data breaches swell in 2021 amid hacking surge, POLITICO, 2022

TOGETHER, SAMSUNG AND DENALI CAN HELP

DENALI'S SOLUTION BENEFITS:

- Reshape working practices and launch mobility innovations faster with standardized mobile device procurement
- Fully managed solution for predictable costs and improved asset management
- Seamless integration of mobile, wireless, and apps for a connected patient experience
- First-class global standards and policies applied to reduce information risks

SAMSUNG'S DEVICE ADVANTAGES:

- Galaxy XCover6 Pro offers high-speed connectivity, minimizing downtime
- MIL-STD-810H rated for durability; IP68 rated for water protection
- Samsung Knox ensures security from the chip up, with advanced biometrics and defense-grade protection
- Long-lasting battery, easily manageable and unobtrusive design, paired with a long product life cycle, make it suited for healthcare environments

**Revolutionize healthcare experiences
with Samsung & Denali's innovative solutions.**

WHY DENALI

Global Expertise

Denali collaborates with technology leaders like Samsung for tailored solutions

Strategic Partnerships

Strong relationships enable customized, efficient solutions for outstanding results

Business Transformation

Denali's experts provide packaged IT solutions to achieve exceptional business outcomes
